

Specialist Training and Mentoring

As a step on from formal training courses and consulting days, DSCallards offer Mentoring services. These one-to-one sessions focus on key areas and provide a more flexible approach for advanced users.

We also offer Kick-start sessions which provide hand-held assistance for you to move from the classroom to an actual project.

Whatever your requirement, DSCallards will work with you to identify your training requirements and deliver the skills required to take your business forward into the future.

CRYSTAL REPORTS AND XCELSIUS TRAINING

Training Programme 2010

- > Crystal Reports
- > Xcelsius
- > Business Reporting Solutions
- > Dashboard and Scorecard Development
- > Data Extraction
- > Mentoring

Training to Meet the Needs of the Enterprise

DSCallards is the number one reseller of Crystal Reports in the UK and Gold Partner of SAP Business Objects. We have been working with Crystal Reports for over fifteen years and deliver a wide range of training courses at competitive rates. Our courses can be tailored to suit the needs of the enterprise in terms of duration, timing and location.

Report Design: Introduction (Two Days)

The first in our series of Crystal Reports training is Report Design, which is a two-day instructor led course that is designed to provide delegates with the skills to enable them to plan and create reports. Topics covered include:

- > Planning and creating a report
- > Organising data on a report
- > Formatting a report
- > Creating basic formulas
- > Representing data visually
- > Distributing a report

Report Design: Advanced (Two Days)

This two-day course is designed to build on the topics learned in the Introductory Course to increase report design skills and discover the reporting power of Crystal Reports. Along with hands-on practice, the course covers the Crystal repository, grouping options, formulas such as variables and functions and parameters.

- > Grouping options
- > Formulas
- > Sections
- > Parameters
- > Sub-reports

“ DSCallards did extremely well in tailoring the course to meet our exact needs ”

The Cooperative Group

Xcelsius Training (Two Days)

The delegate will learn all facets of effective dashboard creation from Xcelsius architecture and basic components, to complex multi-dimensional dashboards. In addition, the course contains a Microsoft Excel module to provide the delegate with the tools to maximize their usage of the features and functionality available within the Xcelsius product. The course takes the delegate through three distinct stages:

- > Getting to know Xcelsius and the basic architecture
- > Adding components and changing their behaviour
- > Making components work together and building professional presentations

Visual Advantage (Three Days)

This three-day course is designed for Business Intelligence (BI) Reporting developers that are new to Crystal Reports 2008 and Xcelsius 2008. The course is separated into three parts:

- > Building reports using Crystal Reports
- > Building BI dashboards using Xcelsius
- > Integrating a dashboard into a Crystal Report

Other courses include:

- > SAP Business Objects Universe Design
- > SAP Business Objects Xcelsius 2008 Enterprise
- > Web Intelligence
- > Crystal Reports Server Administrator Training
- > SAP BusinessObjects Edge Administrator Training
